AIM

To design and build a complete suite of Reports in Zoho Creator for the existing "Hotel Room Booking Form" application, demonstrating the correct usage of all nine Report Types available in Zoho Creator

PROCEDURE:

1. Logged in to **Zoho Creator** and opened the Hotel Room Booking application.
2. Opened the existing **Room_Booking_Form**.
3. Created the following nine reports:
 - All_Bookings_List – **List View**
 - Bookings_Spreadsheet – **Spreadsheet View**
 - Booking_Status_Kanban – **Kanban View**
 - Checkin_Schedule_Calendar – **Calendar View**
 - Guest_Origin_Map – **Map View**
 - Booking_Activity_Timeline – **Timeline View**
 - RoomType_By_MealPlan_Pivot – **Pivot Table**
 - RoomType_Popularity_Chart – **Chart View**
 - Guest_Stay_Summary – **Summary View**
4. Configured the required sorting, grouping, filtering, and summary options for each report.
5. Added sample booking records and verified the reports.
6. Tested report interactions such as Kanban card movement and Calendar drill-down.
7. Verified all nine reports were working correctly.

AISHWARYA ...

CONCLUSION

Thus, the Hotel Room Booking application was successfully configured with the required reports in Zoho Creator. The reports provide different views for analyzing and managing booking data, helping the hotel staff and management make effective operational and business decisions.
